City tour

We would like to welcome you to the 5th TEPHINET & 3rd AFENET Regional Scientific Conference, 31 August - 4 September 2009, Mombasa.

TEPHINET (Training Programs in Epidemiology and Public Health Interventions Networks) and AFENET (African Field Epidemiology Network) always provides once every two years a platform for experts, health professionals and trainees in health to exchange and share their experiences in disease surveillance and outbreak response.

This year, the 5th TEPHINET & 3rd AFENET Regional Scientific Conference is being hosted in Mombasa, Kenya. It is a conference that should not be missed.

The coastal city of Mombasa is one of Africa's major tourist destinations, with some of the best beaches in the world. Located on Kenya's Eastern coastline bordering the Indian Ocean, Mombasa has become popular for its exotic beaches, diverse marine life, world-class hotels and friendly people.

For more information, please contact us at conference@afenet.net or surf our website.
